TECHNICAL SKILLS

Front Technologies: JavaScript, jQuery, Vue.js, React.js

Backend Technologies:

PHP, Laravel, Yii, Node.js, Express.js, CakePHP

Database: MySQL, MongoDB

Project Management Tools:

Trello, Jira, GitHub, SDLC, Agile Frameworks: Scrum, Kanban

Soft Skills: Leadership, Communication, Problem Solving, Continuous Learning

Other Skills:

Web3.js, Blockchain, Solidity, Discord, Solana, Docker, AWS, GIT

WORK EXPERIENCE

Associate Tech Lead

Simplify Workforce Pvt. Ltd.

05/2025 - Present,

Hyderabad, India

Simplify Workforce, a SaaS provider, revolutionizes contingent workforce management with tailored solutions, streamlining processes and optimizing talent acquisition strategies for business growth and success.

- Architected and led development of scalable web applications using PHP (Laravel) and MERN stack, modularity, reusability, and performance optimization across services.
- Implemented CI/CD pipelines using GitHub Actions and Docker, streamlining development-to-deployment workflows and reducing release time by 40%.
- Deployed and managed cloud infrastructure on AWS ensuring high availability, security compliance, and cost efficiency.
- Mentored and led cross-functional teams (frontend, backend, DevOps) in Agile environments, conducting code reviews, architectural discussions, and knowledge-sharing sessions.
- Integrated RESTful APIs and microservices, handling complex business logic, third-party integrations, and authentication systems (OAuth2, JWT) in Laravel and Node.js.
- Ensured robust DevOps practices, containerizing services with Docker, optimizing image builds, and managing multienvironment configurations for development, staging, and production.

Tech Lead

1Box Tickets Pvt. Ltd.

12/2023 - Present,

Bengaluru, India

1BoxOffice is number 1 online event ticket provider.

- Architected and led development of scalable web applications using PHP (Laravel) and MERN stack, modularity, reusability, and performance optimization across services.
- Implemented CI/CD pipelines using GitHub Actions and Docker, streamlining development-to-deployment workflows and reducing release time by 40%.
- Deployed and managed cloud infrastructure on AWS ensuring high availability, security compliance, and cost efficiency.
- Mentored and led cross-functional teams (frontend, backend, DevOps) in Agile environments, conducting code reviews, architectural discussions, and knowledge-sharing sessions.
- Integrated RESTful APIs and microservices, handling complex business logic, third-party integrations, and authentication systems (OAuth2, JWT) in Laravel and Node.js.
- Ensured robust DevOps practices, containerizing services with Docker, optimizing image builds, and managing multienvironment configurations for development, staging, and production.

Senior Software Engineer

Samarth eGov, IIC, Delhi University

08/2023 - 12/2023,

Delhi, India

Project of the Ministry Of Education, Gov of India

- Led the design and development of scalable web applications using PHP and the Yii framework, adhering to best coding practices and design patterns.
- Architected and optimized complex MySQL queries, improving data retrieval speed and application performance.
- Deployed and managed applications on AWS (EC2, S3, RDS), high availability and cost-effective infrastructure.
- Handled source code versioning and branching strategies using Git, enabling seamless team collaboration and CI/CD readiness.
- Mentored and managed a team of 3 developers, conducted code reviews, task planning, and performance tracking to ensure timely and quality deliverables.
- Actively participated in requirement analysis, sprint planning, and client communication to align technical deliverables with business goals.

Tech Lead PHP

Dreamsoft Infotech Pvt. Ltd.

10/2020 - 07/2023,

Noida, India

Information Technology & Services

- Led Full Stack Development: Designed, developed, and maintained web applications using PHP, Laravel, Laminas, Vue.js, React.js, Nuxt.js, Node.js, and Web3.js.
